Ms. Elder stated that LB 1413 was introduced at the Request of Governor Pillen as part of the mid-biennium budget adjustment recommendations for the 2023-2025 biennium. Two sections of LB 1413, as introduced, would impact the NSRB as they would result in the transfer \$3,000,000 from the Records Management Cash Fund to the General Fund on or before June 30, 2024 and June 30, 2025. The bill advanced with Appropriations Committee AM 2698, which provides for the transfer of \$3,000,000 from the Records Management Cash Fund to the General Fund on or before June 30, 2024. The Chairperson stated that he testified on LB 1413, and requested only one transfer of \$3,000,000, as that would be all the Records Management Cash Fund could sustain at this time. There was discussion of prior transfers from the Records Management Cash Fund, and the purpose of this transfer being to assist with property tax reduction.

Agenda Item 7. APPROVAL OF FINANCIAL REPORT. Ms. Elder provided a summary of the December 31, 2023, Cash Fund Balance Report. Mr. Foley moved to approve the Cash Fund Balance Report. Mr. Shasserre seconded the motion. There was no further discussion.

Agenda Item 10. OLD BUSINESS

Agenda item 10.a. Approve Business Plan. Mr. Hughes described changes made to Nebraska Interactive, LLC dba Tyler Nebraska’s (“Tyler Nebraska”) proposed Business Plan. These changes include elimination of the word “refactor” and replacement with “replatform” to accurately represent work being performed, and the addition of required financial information. There was discussion of opportunities to expand services to additional agencies. Mr. Weir made a motion to approve the Business Plan, seconded by Mr. Briese.

Agenda Item 11. NEBRASKA INTERACTIVE, LLC dba TYLER NEBRASK REPORTS

Agenda Item 11.a. Status of Technical Infrastructure Upgrades, Migrations and Enhancements. Mr. Hughes provided an update on the progress made on technical infrastructure upgrades: (1) Migrations to Tyler Application Platform are up twenty-six percent (26%) from a completion standpoint, with seven (7) applications launched or to be launched by the end of this quarter; (2) Migrations to Engagement Builder, are fifty-two percent (52%)complete, with fifty-six (56) applications implemented or pending launch by the end of the quarter; and (3) Pantheon migrations are two and a half weeks ahead of schedule, with all websites now moved to the Cloud.

Mr. Sloan discussed benefits of the movement to Pantheon, including enhanced security. All movement to Cloud hosting through Pantheon was completed following approval of the Nebraska Information Technology Commission (“NITC”) Cloud Review Board. There was discussion of how

movement to the Cloud assists with failover, as it is georedundant and will allow Tyler Nebraska to fulfill the up-time requirements in the Master Contract.

Agenda Item 11.b. Transaction Funded Work versus Paid Hourly Work. Mr. Hughes presented information regarding transactionally funded services, including changes in technology and demand which include both front-end and back-end services. There are currently 553 applications that are not funded by any transactional revenue. While a majority of Tyler Nebraska’s funding comes through transactionally funded services, there are services where there is no associated transactional funding. There are occasions where services cannot be supported without charging a fee, and in those cases, a Statement of Work is prepared using the hourly rates in the Master Contract.

Mr. Reid arrived 9:56.

Agenda Item 11.c. Approve Project Priority Report. Ms. Erb presented the Project Priority Report and stated that Tyler Nebraska’s Quarter 4 goals were to reopen the project hub, accept new projects and enhancements, and modernize technical infrastructure using new Cloud-based technology including Engagement Builder and Application Platform. Tyler Nebraska delivered on these goals. There was discussion regarding how projects are prioritized on the report, and on projects that appeared to be behind the planned completion dates. It was clarified that the report was submitted to the NSRB a month in advance of the NSRB meeting, and at the current time, there were no past due projects. Mr. Sloan also stated that project status can be reviewed in real time online.

Mr. Briese made a motion to approve the Project Priority Report as included in the NSRB materials, seconded by Mr. Kelly.

Some of the respondents have previously built applications for the State of Nebraska. Respondents indicated a variety of experience with custom

Agenda Item 13. NETWORK MANAGER CONTRACT DISCUSSION (Closed Session)

Agenda Item 13.a. Possible action regarding the Network Manager Contract. Mr. Reid made a motion to go into closed session for the limited purpose of discussion of the network manager contract. 1. Describe the project?	<p>This was considered an “enhancement” to the application. When the application was migrated from App Engine to Engagement Builder a few changes were identified. Once the migration was complete, we were able to submit the request to enhance. There were six changes:</p> <ul style="list-style-type: none"> a) Reduce the overall font size. The submission was printing on 6 pages. All applications are uploaded into OnBase. The end user wanted to reduce the size of the document. b) Remove the “introduction” section from the submittal. This is information the customer needs to read prior to submitting the application. It was not necessary as part of the final submittal. This helped to reduce the number of pages. c) Add one word into an existing question for more clarity. d) Add two follow up questions depending on how an applicant answered one of the questions. e) Add a comment box. f) Add the language “If your application is approved, your nursery license will be mailed to you within 4-6 weeks. 			
2. What is the status of the project	Completed.

1. Describe the project?	NDEE has contracted an entirely new website development with Tyler Technologies and subcontractor Dogwood Media Solutions.			
2. What is the status of the project	We feel the subcontractors are making good progress on the new website. Recently, we received our “first look” of the development of the new site, and overall we are happy with what has been done.			
3. Was there any delay? If so, why?	Yes, there were some delays from NDEE side. Due to having to build and define “road maps” for each section and pages, some sections took a significant amount of time due to teammates out of the office and/or the amount of information and pages within a selection.			
4. Will it be launched within the next 90 days?	The original timeline had the website scheduled to be completed in August 2024. I am uncertain that website will be done by that time due the significant amount of work that still needs to be done in the next 90 days.

3. Was there any delay? If so, why?	Once we were able to connect and meet with Tyler Technologies and determine that there was a path forward using the Drupal template (rather than a new build out), Tyler Technologies got us the tools we needed in a timely manner.			
4. Will it be launched within the next 90 days?	It is my expectation that the website will be launched within 90 days.

Department of Health & Human Services	Event Registration	04/05/2024	04/2024	Tier 3
1. Describe the project?	Event Registration for the Nebraska Tobacco Control Conference on May 15, 2024.			
2. What is the status of the project	Completed.			
3. Was there any delay? If so, why?	<p>Yes, for the reasons list below:</p> <ul style="list-style-type: none"> a) It took a considerable amount of time and research to ascertain whom within the State of Nebraska system I needed to contact about setting up an event registration. Someone finally suggested I call the State Treasurer's office and the manager there was able to connect me with Tyler Technology b) Tyler Technology needed the COS Addenda, with which no one within the Health Promotion Unit nor the State Treasurer's office was familiar. I had to deduce it from the other COS Addenda that Tyler Technology had. I hope the information was correct because I had no way of confirming it. c) There were several technological glitches on Tyler Technology's end once the event registration was supposed to be live, including the payment page initially not accepting payment information from registrants. However, these glitches were quickly addressed. d) Once the issue with the payment glitch was resolved, the registration went very smoothly. Tobacco Free Nebraska intends to use the registration page for next year's event. 			
4. Will it be launched within the next 90 days?	The event registration was launched on May 1, 2024. The event occurred on May 15, 2024.

Public Service Commission	Auto Dialer Modernization Enhancement	01/29/2024	06/2024*	Tier 3
1. Describe the project?	<p>The Nebraska Public Service Commission (PSC) regulates the use of automatic dialing announcing devices (autodialers) to deliver recorded call scripts to autodialed telephone numbers. The users of autodialers are required to submit scripts for PSC review and approval. Scripts have to meet certain requirements. The PSC has used a site developed by Tyler Technologies (then Nebraska Interactive) whereby users could submit scripts, and the PSC could approve or deny.</p> <p>This project was set up to make improvements to the prior site for autodialers and the PSC. The enhancements would allow better management of user accounts, some additional flexibility from the PSC for adding new users, modifying existing information, etc. The enhancements also allow the PSC to create reports.</p>

Veterans' Affairs	World War II Recognition Medal Program	04/22/2024	05/2024	Tier 3
1. Describe the project?	Our only project in 2023-24 was the creation of an online application for our World War II veteran recognition program. We had a short timeline to get the project pulled together and Tyler Technologies was very responsive and helpful in ensuring we met our deadline. We submitted our first ticket 4/8/24, and once we were contacted on moving forward we provided an initial draft of the application and contact information for who should receive responses. They quickly created a draft form for us to test and modify and completed all our revisions. The form was able to accomplish all our needs – including document upload, conditional logic and more. It went live 5/8/2024, right in time for our announcement event with Governor Pillen.

General Manager's Report

January 1st - March 31st

Quarter 1 2024

Executive Summary

During Quarter 1, Tyler Nebraska was firmly focused on modernization. This was the first full quarter of our reboot of the modernization effort, and the results did not disappoint. Our three modernization focus areas were The Tyler Application Platform, Engagement Builder, and website migration to Pantheon.

As we had committed, we not only achieved but surpassed our development targets for modernization, accomplishing 100% completion for every component in the first quarter. This propelled us ahead of schedule, with development on two applications for the second quarter already in progress.

One of the most significant milestones in our modernization journey was the complete transition of our websites to the cloud. We successfully migrated 57 websites to Pantheon, our Drupal cloud provider, 3.5 weeks ahead of schedule. This migration to the cloud brings numerous advantages, including faster enhancements, improved performance, reduced resource overhead, enhanced security, reduced technology debt, and enhanced service availability. This move to Pantheon is a significant stride towards our goal of delivering Nebraska's most trusted ".gov" platform.

In Quarter 2, our focus will remain on providing a modernized technology platform, as showcased in our Quarter 3 2023 Modernization Plan.

- In our Application Platform group - We will begin working on more complex application builds that touch far more users than the Quarter 4 of 2023/Quarter 1 2024 work did. We are expecting to see the same excellence, we did in Quarter 1.
- Now that we are on Pantheon, we will shift our focus to updating Drupal from version 7 to version 10. The Pantheon migration was critical for us to enable a much quicker Drupal modernization.
- Engagement Builder: Our Quarter 2 target is to wrap up the modernization of our form builder use cases to Engagement Builder. The Application Engine platform is sunsetting on July 1, 2024, and we are well on track to be entirely off Application Engine and onto the far more powerful Engagement Builder platform.

Time and Hours Review

Q1 Time Spent by Project Funding

Full Year 2024 Time Spent by Project Funding

Self-funded and **non-revenue** hours are subsidized through transactions approved by the NSRB. **Time and materials** are paid for and included in an SOW agreement with the partner by hourly development rates (such as websites). **Revenue** hours are billed for services such as content management requests. These totals include development hours only.

Grant-funded hours are non-tax appropriated funds acquired through the NCHIP/NARIP grant in conjunction with the Nebraska State Patrol.

Hours allocated for technical infrastructure upgrades are allocated as "self-funded" hours. In full year 2023, 84% of the hours worked came at no direct cost to state agencies or local partners.

CISA Releases Physical Security Checklist to Help Election Officials Secure Polling Locations

WASHINGTON – Today, the Cybersecurity and Infrastructure Security Agency (CISA) released the [Physical Security Checklist for Polling Locations](#), a new tool designed to bolster security preparedness for the frontline of U.S. elections.

The checklist, part of CISA's [suite of election security resources](#), is tailored to empower election workers with actionable and accessible security measures for locations serving as temporary election facilities.

"Protecting against physical threats to election locations like polling places where Americans cast their vote is one of the most significant responsibilities election officials bear. CISA is committed to doing anything we can to support this mission," said CISA Senior Advisor Cait Conley. "The people who run elections and those who volunteer to work at polling places are heroes, and CISA is proud to support them, including with critical threat awareness and planning tools such as this checklist. While no measure can eliminate all risk, these resources empower officials to understand, mitigate, and address security challenges proactively."

Customer Satisfaction Ratings

Tyler Nebraska has initiated customer service ratings in several public-facing applications. After completing an application, the public user is prompted to rate the application on a five-star scale. The data is tracked by overall performance, agency, or individual service. In Q1, Tyler Nebraska collected 32,748 responses from constituents. In late 2023, the DMV-Plate-Registration service was migrated to a 3rd party vendor, and is not included in Q1 statistics.

Tyler NE applications had an overall 4.47 average star rating in the first quarter. In Q1 2024, 77% of respondents gave Tyler NE applications a five-star rating.

Tyler NE will continue to add customer satisfaction functionality to all public-facing applications. Tyler NE currently tracks satisfaction with some of the most extensive public-facing online services.

Furthermore, our Director of Development, Bruce Rice, retired at the end of March after many years of dedicated service. We are pleased to announce that Chad Cornelius has stepped into the role as his successor.
